

Environmental Policy

Tron Civil Contracting Pty Ltd is committed to conducting its operations and business activities in a manner that prevents or minimise pollution and other adverse impacts on the environment.

To fulfill this commitment, Tron Civil will:

- comply with all environmental legislation, formal agreements, and relevant industry standards;
- integrate environmental management systems with its existing business systems;
- measure and continually improve our environmental performance;
- ensure environmental impacts are considered in the planning, design, construction and operation of our work;
- recognise the biodiversity of areas under its operational control, and avoid unnecessary disturbance to cultural and natural sites of significance;
- work within a frame work of sustainable development by using resources in a manner which maximises their value to the community and to future generations;
- respond openly and constructively to the reasonable expectations of the community on environmental matters;
- promote an attitude of care and responsibility and a sense of stewardship, for the environment by employees;
- minimise waste generated by our operations;
- inform agents, advisers, contractors and consultants of the Environmental Policy.

The Tron Civil is responsible for this Policy and monitoring compliance with the Policy.

Managing Director is responsible for ensuring that day-to-day responsibility for implementing this Policy is delegated to line management and employees.

Glen Blackmore
Managing Director
